

Scanning Participant Checklist

If you answer “yes” to any of the questions on the safety screen, please contact us as soon as possible to discuss this prior to your scan.

To ensure your safety please review the items below.

1. Wear clothing that does **not** contain any metal (e.g. pants with metal zippers and buttons, bras with metal wiring). Dress comfortably- it is best to wear sweatpants, comfortable t-shirts, sports bras etc.

*Please note that some Lululemon athletic clothing contain ferromagnetic threads in them (the "silverescent" line), so it is best to avoid those

2. Please be sure your hair is completely dry. It is best to come with your hair down for your own comfort and to avoid the use of bobby-pins, clips, etc.

3. Be sure to take off all jewelry and piercings (Earrings, rings, facial and other body piercings)

4. Please come make-up free

5. If you wear glasses, please bring your prescription so that we can provide you with MRI compatible eyewear. If you have contacts, please wear them instead of your glasses

If you have any questions regarding any of this information, please contact us at tendlab@mail.sdsu.edu or (619)-878-3636
