

TEND Lab Member Receives Poster Award!

TEND Lab member, Karen Schwartz, won the 2016 Child and Adolescent Depression Special Interest Group (SIG) Poster Award for her poster entitled, “An Exploratory Factor Analysis of Irritability in a Sample of Anxious and/or Depressed Youth”. Schwartz presented the poster at the 50th annual meeting of the Association for Behavioral and Cognitive Therapies in New York. ABCT’s annual convention brings the cognitive-behavioral community together to explore current developments in research and practice and to stimulate thinking about the myriad issues that surround CBT and how it intersects with other disciplines.

Congratulations, Karen!
